**Press Release**

**Finally, There's Tremendous Relief for Kidney Patients. "Nocturnal Dialysis" At Home; While They Sleep!**

Cindy Barclay, CEO of Quality Dialysis goes 'above and beyond' by providing her facilities' patients the new and long awaited *Nocturnal Dialysis*. Quality Dialysis is the first facility to offer all night hemodialysis in the comfort of your home.

*Nocturnal Dialysis* means that patients no longer have to spend part of their day traveling to and from dialysis clinics for their treatments. Now, with this new procedure in place, qualified patients can receive their treatment overnight, in the comfort of their own homes, while they are sleeping! This new procedure is a **tremendous relief** to those patients already receiving it, and especially for patients with work schedules that conflict with the facilities ability to accommodate their needs. In addition to the ever-popular staff-assisted home dialysis program that Quality offers.

Cindy Barclay continuously strives to bring her facilities' patients the best possible dialysis healthcare in the industry. She is consistently searching for latest and greatest in dialysis technology to provide quality care for her Houston community based patients, this concept goes simultaneous with the recognized care and passion she has for her patients. Her hands-on approach is demonstrated by active participation with other dialysis nursing colleagues in the patient's homes, ensuring that patients and family members are completely comfortable with dialysis procedures.

*"This brings me overwhelming happiness to be able to offer a procedure that provides more autonomy for dialysis patients receiving hemodialysis."* Ms. Barclay said during a recent interview. *"Our patients are delighted and feel a great sense of relief and comfort. It has given them back a large part of their life, in addition to allowing them to gain control."*

Quality Dialysis was established in 1993 and is a professional staff-assisted, responsive, patient centered, hemodialysis and peritoneal dialysis service to patients and their families.

Health challenges like chronic kidney disease can be a cause of great concern and discomfort. Quality Dialysis offers informative consultations to prospective patients and their families **free of charge**. For more information call the center at 281.491.4009 or toll free 1.888.491.9533.
