Astronaut

An astronaut is a person who travels out of Earth.
Roberto N., 9

An astronaut is a man or women can take trips on planets.
Karen D., 10

I think an astronaut is a person that goes into outer space and discover the planets.
Jada P., 10

I think the word astronaut means a person who wears a big white suit and travels through space.
Ryan D., 10

An astronaut means someone who will risk their life for science.
Kennedy S., 10

I believe astronaut means a person who flies into space and learns more about the nine planets.
Joya-Deanna H., 10

I think astronaut means a person who goes to space and comes back to Earth and tells you what is going on in space and on the planets.
Kyndal F., 10

An astronaut is a person who rides in a space ship into space that discovers new things on different planets.
Kebreyun P., 10

Astronaut means like a rocket science person.
Carl M., 10

An astronaut is a person who goes into outer space and tells the people they work with what they saw.
Jade A., 9

Astronaut- a person in space with a space suit and oxygen tank.
Dashawn R., 9

I think astronaut means a person that goes into space and observes the planets, stars and other things that are floating around.
Jacqueline R., 10

An astronaut is a person who goes to outer space to check on the satellite dish or gets clues for schools about space.
Tapaynga C., 10

An astronaut is a person who searches for planets.
Sabian S., 9

What would life be like if we lived in outer space?

Aaahh! I saw ugly green Martians and red rock all over the place! Suddenly they walked in front of me and said take me to your leader. There were over a million Martians, there were 201,044,350 Martians. I was so scared; I passed out for about two hours. When I woke up they wanted to make me their queen. They wanted to have a feast so we did. I have learned that the first Martians are freaky because they have three eyes and an antenna on their head but then they are not so scary when they are your servants.
Monette S., 10

The coldness caught my nose in a breeze; it felt like Pluto out there. I started shivering and then I wondered where I was. It tasted bittersweet. I looked all around and all I saw was dark, like snow. Other people were roaming around. When I thought I saw my friend I galloped to where he was. He asked me to taste a drink. I asked what it was and he said he found it. So we made a deal- if I tasted it, I would get 20 dollars. It tasted real fruity. I smelled gingery; I could not observe it very well. Then you wonder why it was very dark outside. We explored until we found something. At one point, my friend froze up. I called his name and then I looked where he was looking. Then the glamorous mansion caught my attention. We darted as fast as we could until we got there. When we got inside we saw an elevator. Of course we took the elevators because they mansion had many floors. It was the most gorgeous house we have ever seen in my entire life... From this experience, I have learned that you will always reach your dreams one day if you try and don't give up.
Michael W., 10

Pop! Lock! Zoop! 10, 9, 8, 7, 6, 5, 4, 3, 2, 1, blast off! Ready to go to Saturn? All I can see is smokearoo! I gazed at the royal castle and replied- that is where I live! We have different kinds of rooms. For example we have a makeover room, arcade room, water room, aquarium room, restaurant room and 287 more rooms! Woah, even when I noticed my bedroom was missing my mom stated my room has a chocolate door with strawberry cookies! Woah! Woah! Hallelujah! Hallelujah! Everything that is good is in it! Aw man we have to use our space ship again to drive around Saturn. We came from Neptune and that is why we travel. My dad is the President of all Space! I wish it was not green, slimy and slobby! I smelled gas on the way here! I noticed it was glowing rich gold. It was cool and tender when I touched it. I tasted sweet chocolate, ripe mango, crispy chicken and last but not least fruity strawberry! I love space!
Krizzle D., 9

Wow! I am out of space, it is nothing to space! When you are out of space you cannot eat, you cannot play! The only thing you can do it float around. All day it will be miserable, floating around all day! But I know one thing that would be great; you would be relaxed and peaceful! I would like to be on Earth so I could see everybody and every State! It would be cool and boring to be in space. You would never know what is coming to you. I would like to see how it smells, looks, feels and touch it. I would like to go to outer space and see some planets.
Angel M., 10

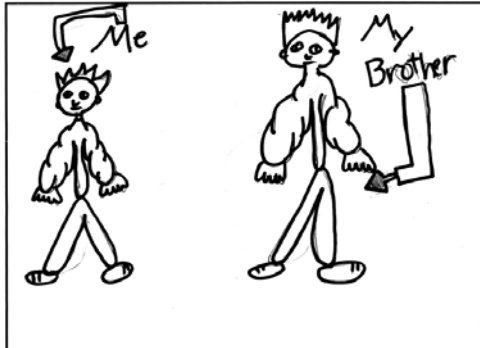

5-4-3-2-1 blast off! Is that the sound of the space ship? We are on our first trip off Earth. I could not

wait to be in outer space. I wondered what life would be like floating around in the sky and wearing astronaut clothes. After we put on astronaut clothes, we went out to play. Outer space looked nothing like home. I saw a lot of stars and they were all little. We could not tell when it was day or night. We stayed up all night and ate a lot of sandwiches and then fell asleep. I really wanted to sleep outside but I could not.
Tiarrah L., 10

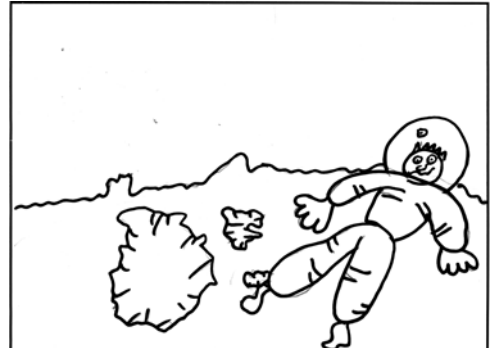

Swoosh! I flew through space like a rag doll. As I floated to Jupiter I spotted my friend. We were both excited that scientists found a way for people to explore our lives in outer space. I asked him to join me in the Space Olympics. He agreed and followed me to Jupiter where it was held. The first game was the Space Race. Pow! The shot of the gun sounded like people screaming. I took the lead in first place. It was extremely hard to move through the gas that was gliding through space. I was so close to floating off into another planet. My friend was stronger and faster than me; se he was close by. I slowly jumped to the tape and ripped it. I started not to like space when an alien ship swooped by and took my friend. I never did see him again...
Tymir K., 10

Wow! Where in the world am I? "You are in Mars," said a very small voice. "Who said that?" I questioned. "I am sorry, I am org!" said the small voice. I am the Alien Ruler of Mars. What in the name of purple fruit roll ups? I am more confused than a baby bird that cannot find its mommy. Don't be afraid little one; you are not part of our family. Org showed me to a small box. Yuck! What is that dreadful smell? "Oh, that is the suit you have to wear to stay alive" said Org. How come you don't have to wear this stinky stuff? We are aliens and we don't have too, we live here our whole lives. Well I guess I will take one but I have to get home. Do you have a rocket to go to Earth? Sure... 5...4...3...2...1!
