If you could interview ANYONE, who would it be & what would you ask?

I would like to interview Katy Perry because I like the way she dresses and her songs. I would ask Katy Perry where she does her shopping. I would ask her where she gets her inspirations from. I would like to know who her idol was when she was a little girl.

If I can interview anyone, I would interview Michael Jordan. I would choose Michael Jordan because he is the greatest NBA player

of all time. He is the best that has ever played the game. Another reason I would want to interview him is because I want to go into the NBA. I would ask Michael what things he did to become a legend.

Brandon H. age 10

I would interview God because I love him with all of my heart. He protects all humankind and helps us when we were in trouble. God is a man who would have time to be interviewed. I would ask God three questions: Is it hard to see everyone in the world? Do you get mad at people sometimes? Does it take a long time to see everyone?

If I had to choose anyone to interview, I would choose Stevie Wonder. I love Stevie Wonder and his music inspires me. I think if you work very hard for something, you can make it

happen. Stevie Wonder is blind, but he is a wonderful musician. He plays the piano and many other different instruments. I would ask him, "How hard is it to play all of those instruments and not be able to see?" I would like to know why he chose to be a musician. I would like to know what he had to work hard on when he was in school.

Jennings G. age 10

If I had to pick a person to interview, it would be Louisa May Alcott. I love to write, and I want to be a writer when I get older. I would like her to tell me about writing. She loved the outdoors and nature, and so do I! I would ask her about writing and about her books. I would like to know how she got her ideas about her books. I think her style of writing is interesting. I hope one day I can write a well as Louisa May Alcott.

What is the difference between hurricanes, cyclones and typhoons?

Hurricanes, cyclones and typhoons are the same type of storms, but are called different names depending on the location of development. They are termed hurricanes in the Atlantic and eastern Pacific Oceans, typhoons in the northwestern Pacific Ocean and cyclones in the Indian Ocean and southwest Pacific Ocean.
